We want to hear from you!

For our Nov. 15th webinar- we want to hear from as many GLOBE schools as possible telling us how you have already collaborated with other GLOBE schools- or even telling us why you would like to in the future!

There is a sample on the next slide. I am including a template for you to use- please return slides to dorian.w.janney@nasa.gov by **Nov. 13th** so we can use them in our webinar.

Damascus High School, Damascus, MD

- We want to collaborate with some other schools this school year on the mosquito protocol. As we won't have mosquitos return to our area until the spring, we want to see pictures of what schools who do have active mosquitos. At the present time, we have contacted several schools in Thailand who are using the mosquito protocol and will work with us during the school year.
- The next step is to introduce the students at these schools to us! We will share our pictures and information and ask them to do the same. We will keep in touch regularly through email and maybe even chat via skype or Zoom.
